

# WAKE-A-FRIEND

If you and your family are safe from any immediate danger, we will be asking you to call anyone you know that might be in the path of a severe storm and wake them up. By waking a Friend, you may be saving a life. Put this list on your refrigerator or in any other place that will give you quick access. During severe weather your phone call may give friends or family the precious minutes they need to get to a place of safety.
